Gods and Mortals

I already know:

- what an object is made from and talk about its properties.
- how to identify and name a variety of everyday materials and compare the suitability of a materials for a particular use.
- that some solid materials can be changed by twisting, bending, stretching or squashing an object.

Key Vocabulary:

forces	a push or pull that acts upon an object
friction	the force that acts upon one surface when it moves against another
pull	to move something towards
push	to move something away
gravity	an invisible force that pulls objects toward each other
mass	how much matter is in an object

I will learn:

- about and to describe how objects move on different surfaces.
- how some forces require contact and some do not.
- that gravity is a force that acts upon objects.

Pushes and Pulls:
