Mighty Metals

I already know:

- I know how to use the internet and books to find out more information about the past.
- I know about the lives of famous people from the past because I know how to research.
- I know what certain objects from the past might have been used for. that historic items have been used to build up a picture of life in the past.
- How an event from the past has shaped our life today.

Key Vocabulary:

ancient	something from a very long time ago
appearance	what something looks like
coins	a flat piece of metal used as money
engineer	a person whose job it is to make machines
functionality	a practical thing made to serve a purpose
metal	a solid material that is typically hard and shiny
robot	a metal machine that helps humans
technology	the use of science for practical purposes
tool	a device that carries out a function
weapon	a thing designed to cause harm or damage

I will learn:

- how James Dyson used and uses technology to improve the quality of lives.
- how robots have changed in appearance and functionality throughout history.
- to explore how metal has been used in tools and weapons history.
- to explore how metals have been used to make money in history and how the Royal Mint was created.

James Dyson, a British Engineer Metal coins from the past
