

# History Knowledge Organiser

## Predators

### I already know:

- How to use the internet and books to find out more information about the past.
- That historic items have been used to build up a picture of life in the past.
- How events from the past has shaped our life today.
- The difference between history and prehistory.

### Key Vocabulary:

|              |                                                       |
|--------------|-------------------------------------------------------|
| hereditary   | a title passed from parent to child                   |
| aristocracy  | the highest class in society which can govern society |
| dynasty      | the hereditary rulers of a country                    |
| Emperor      | a sovereign ruler of an empire                        |
| jade         | a hard green stone                                    |
| excavation   | removing something from an archaeological site        |
| legacy       | the impact of events in time                          |
| Oracle bones | pieces of animal bones that were used for predicting  |
| priest       | a minister of church                                  |
| tomb         | an underground vault used for burying the dead        |

### I will learn:

- where to place the Shang Dynasty on a historical timeline.
- what oracle bones are.
- the importance of Lady Fu Haos tomb.
- what we can find out about Chinese history from ancient artefacts.
- the importance of dragons in Shang history.
- early civilisations gave much to the world.

Lady Fu Hao

Shang Dragon
