

Geography Knowledge Organiser

Paws, Claws and Whiskers

I already know:

- I know where I live and I can tell someone my address.
- I know what I like and what I do not like about the place I live.

Key Vocabulary:

aerial photo	a photo taken from above
aerial plan	a drawing looking down towards the ground
settlements	places where people live or work
climate	normal weather of a place over time
weather	daily changes in temperature, wind & rain
equator	an imaginary line around the centre of the Earth- the hottest part of the world
North and South Pole	the coldest places in the world, at the top and bottom of the Earth
continent	big pieces of land that the world is divided into

I will learn:

- the names of the 4 countries of the United Kingdom and locate them on a map.
- the name of the 3 main seas that surround the United Kingdom.
- to point to the equator, North and South Pole on an atlas and a globe.
- about some of the features of an island.
- the 7 continents of the world.
