

Geography Knowledge Organiser

Dinosaur Planet

I already know:

- About some of the hot and cold places in the world.
- To point to the equator, North Pole and South Pole on a map.
- The names and some facts about different continents.

Key Vocabulary:

continent	a large, solid area of land
ocean	a huge body of water
Jurassic coast	coastline (where land meets the sea) in the south of England, where many fossils have been found

I will learn:

- to name the continents of the world and locate them on a map.
- to name the worlds oceans and locate them on a map.
- about the key features of a place (Jurassic Coast) from pictures.
