

Science Knowledge Organiser

Beat Band Boogie!

I already know:

- I can distinguish between an object and the material it's made from.
- I know the materials an object is made from.
- I know the 5 senses and which part of the body they use.
- I know that instruments make sound.

Key Vocabulary:

sound	anything that can be heard
instrument	a thing used for making music
brass	metal alloy used to make instruments
vibration	the rapid movement of physical particles
pluck	pulling a string to cause it to vibrate
scrape	to produce a sound by moving a scraper on a serrated surface
shake	moving an instrument back and forth in the air to create rhythm
blow	to make a noise by passing air through an object
ear	the organ for hearing

I will learn:

- to identify and name a range of materials
- why a material might or might not be used for a specific purpose and instrument.
- how a human hears
- what the purpose of different sounds are
- how to carry out a simple experiment
