

Science Knowledge Organiser

Scented Garden

I already know:

- How to ask simple scientific questions
- How to use simple equipment to make observations.
- The names of a variety of common wild and garden plants.
- I can name the petals, stem, leaves and root of a plant.
- I can name the roots, trunk, branches and leaves of a tree.

Key Vocabulary:

plant	a living thing that grows in soil and water and uses sunlight to make its own food
germinate	when a seed grows into a plant
pollen	A fine powder that plants release to reproduce
flower	the colourful part of a plant that produces seeds
bulb	the resting part of a plant such as an onion or a tulip

I will learn:

- how seeds and bulbs grow into plants.
- what plants need in order to grow and stay healthy (water, light and suitable temperature)

What do plants
