

Geography Knowledge Organiser

Wriggle and Crawl

I already know:

- The equator is an imaginary line that divides the Earth into two parts.
- About some of the main things that are in hot and cold places.
- There are seven continents in the world and can locate them on a map.

Key Vocabulary:

Great Barrier Reef	the worlds largest coral reef system, found underwater, close to Australias coast
territories	areas that belong to a country but arent states, meaning they dont have their own governments like states do
Southern Hemisphere	the half of the Earth that is south of the Equator
Aboriginal	The original people who lived in a place, like the first people to live in Australia who are called Aboriginal Australians

I will learn:

- to identify and locate Australia on a world map.
- to continue using directional vocabulary.
- to compare and contrast Australia with the U.K.
- about some of the physical and human features in Australia.

Sydney Opera House

Ayers Rock
