Raiders and Traders

I already know:

- The Anglo-Saxons settled in Britain when the Romans left in AD 410.
- Europe is the second smallest continent.
- Europe has around 44 countries, including the U.K.
- I know how to use an atlas by using the index to find places.
- The names of a number of countries in the Northern hemisphere.

Key Vocabulary:

agriculture	the farming of crops or animals.
early settlers	the first people to settle in an area including Romans, Vikings and Anglo-Saxons
industry	businesses that provide products or services.
Scandinavia	the Vikings descended from all over Scandinavia (now Sweden, Norway, Finland, and Denmark). The terrain of Scandinavia was not great for farming, so Vikings left their homeland in search of more fertile lands
settlement	a place or region where people settle to live

I will learn:

- about 740 million people live in Europe.
- Stockholm is the capital of Sweden, a country in northern Europe.
- about physical and human features of Stockholm and compare them to Birmingham.
- why ports are important and the role they play in distributing goods around the world.

Stockholm, Sweden
