Year Four Home Learning – Spring Two

Our topic this half term is European Neighbours. We will be learning about the physical and human features of Europe, Picasso. In Science we will be studying the process of digestion, food chains and types of teeth.

Find out about and produce a poster on a European city of your choice. 	Research and produce a fact file about a significant artist, who specialised in cubism.	Create a piece of art in the style of Picasso. 	Draw, paint or create a poster or fact-file about a food chain of your choice.	Draw or make a map of Europe. Show where the important landmarks are. 
Find out how to say 'Hello' in different European languages. (You will get a house point for each one you find out).	Create your own maths problems involving fractions. 	Produce a model of a European landmark of your choice.	Investigate traditional dishes from different countries in Europe. 	Learn as many capital cities and flags from Europe.

Our School Values: *We are respectful, ambitious, creative, inclusive, independent and we persevere.*
