

Motivate • Educate • Achieve

Year 6 Home Learning

Imagine that earth has entered another Ice Age. Write a diary-style piece describing the changes and how the human race has adapted to cope.	Use a range of snowy images to create a polar collage. Remember to use lots of interesting textures, shapes, colours and patterns. 	Create your own Arctic and Antarctic word search puzzles using all the new words you have learned during the topic.	Choose your favourite polar animal. Sketch it as realistically as you can. You could even try making a model of it. 	Create a poster or brochure for a new travel company which arranges visits to the Arctic or Antarctic. Use powerful images and persuasive text to tempt customers who want an extra-special trip! 
Design a pair of snow boots for an Arctic explorer. What materials would you use? What features could they have? Annotate how they will help you in the Arctic. 	Imagine a common domestic animal became an inhabitant of the Arctic or Antarctic. How would it have to adapt to survive there? Longer, thicker hair? What else? Rename your common animal with a more exciting 'polar' name!	Choose one of the Polar Explorers we have studied, or find one of your own. Write a biography about their life. 	Choose a city in the Arctic Circle. Record the temperature in this city for two weeks. Create a graph showing the changes in temperature. Can you research the temperature in other months? Create a graph to show the changes in temperature over a typical year.	Use the Northern Lights as an inspiration for a piece of work. You could write a poem, create a piece of artwork or complete some research on one of the Seven Wonders of the Natural World.

Our School Values: *We are respectful, ambitious, creative, inclusive, independent and we persevere.*
